

Diabetes Done Right™

# GLUCOSE GUARDS

## Diabetes Solutions

### Who We Are

Glucose Guards is a full-service Diabetes Education, Support, and Management Company that immerses, engages, and incentivizes patients to take an active role in their health. We support various clinical and non-clinical pathways and offer:

- ✓ **Gamified portal experience** with point system, integrated virtual logbook, weekly live and on-demand webinars, community forum, interactive games, and more!
- ✓ **High-quality diabetes education** with American Diabetes Association recognized Diabetes Self-Management Education and Support (DSMES) curriculum.
- ✓ **Personalized member support** with one-on-one coaching from Certified Diabetes Professionals (CDCES/BC-ADM)
- ✓ **Remote Patient Monitoring (RPM)** alongside clinicians for better clinical outcomes and increased practice revenue.

### Remote Patient Monitoring

Remote Patient Monitoring (RPM) allows for blood glucose data to be viewed in real time allowing for early intervention. In addition, RPM offers a generous reimbursement model for physician practices that works with **Glucose Guards** to bring in approximately \$85+ per member per month (PMPM).

**Glucose Guards** provides a turn-key RPM solution. This means a better service for you and your patients with no extra hassle. **Glucose Guards** takes care of everything from ordering and troubleshooting devices to monitoring readings on your behalf. At the end of each month you'll receive a summary of your patient's activity as well as billing documentation.

**Glucose Guards** *does not* manage the medical care of your patients; we are here to support your efforts. Glucose Guards provides you the tools needed to launch a successful RPM program.
